The world of work is undergoing a profound transformation. The rise of automation, artificial intelligence, and the gig economy is disrupting traditional employment models and creating new challenges for workers and businesses alike. At the same time, the COVID-19 pandemic has accelerated the shift towards remote and flexible work, raising new questions about the future of the workplace.

In this groundbreaking book, leading workplace strategist and author Fiona Smithson offers a roadmap for creating a more equitable, sustainable, and fulfilling future of work. Drawing on her decades of experience working with organizations around the world, Smithson provides practical insights and actionable recommendations for rethinking the way we work.

Key Features of the Book

- **A comprehensive overview of the forces shaping the future of work.** Smithson provides a clear and concise analysis of the major trends driving change in the workplace, including automation, artificial intelligence, the gig economy, and the COVID-19 pandemic.
- **Practical insights into the challenges and opportunities facing workers and businesses.** Smithson offers valuable insights into the challenges facing workers, such as job insecurity, wage stagnation, and work-life imbalance. She also provides practical advice for businesses on how to adapt to the changing world of work and create workplaces that are more attractive to employees.
- **Actionable recommendations for creating a more equitable, sustainable, and fulfilling future of work.** Smithson outlines a series of concrete steps that workers, businesses, and policymakers can take to create a more equitable, sustainable, and fulfilling future of work. These recommendations cover a wide range of topics, including job creation, wage policies, workplace culture, and environmental sustainability.
