Key Terms and Provisions

The Treaty of Paris contained several key provisions that had far-reaching implications:

1. **Cession of French Territories:** France ceded all of its territories in North America east of the Mississippi River to Great Britain, except for the city of New Orleans and the island of Guadeloupe. This vast land acquisition gave Great Britain control over the eastern half of the continent and secured its position as the dominant power in the region.
2. **Spanish Cessions:** Spain ceded Florida to Great Britain in exchange for the return of Havana and Manila, which had been captured by the British during the war. This exchange strengthened British control over the Caribbean and gave them a foothold in the Gulf of Mexico.
3. **French Retention of Trade Rights:** Despite losing its territorial possessions in North America, France retained certain trade rights such as the right to fish off the coast of Newfoundland and to trade with Native American tribes in the Great Lakes region.
4. **Settlement of Boundaries:** The treaty established new boundaries between Great Britain, France, and Spain in North America and Europe, providing a framework for future relations.
