

Local Voices in Measurement and Evaluation After War

Essential Insights and Perspectives for Practitioners

In the aftermath of war, measurement and evaluation (M&E) play a vital role in assessing the effectiveness of interventions and ensuring accountability. However, traditional M&E approaches often fail to capture the complexities and nuances of post-conflict contexts. This book, "Local Voices in Measurement and Evaluation After War," provides a much-needed corrective by bringing together the voices and perspectives of local practitioners and researchers.

Reclaiming Everyday Peace: Local Voices in Measurement and Evaluation After War

Edited by leading experts in the field, this comprehensive volume offers a unique blend of theoretical and practical insights. The contributors, who come from a wide range of disciplines and backgrounds, share their

experiences and lessons learned in designing, implementing, and evaluating post-conflict interventions.

The book is divided into five parts, each of which focuses on a different aspect of M&E after war:

1. Part 1: The Challenges and Opportunities of M&E After War

This section provides an overview of the challenges and opportunities of M&E in post-conflict contexts. It discusses the unique methodological and ethical issues that arise in these settings and explores the potential of M&E to contribute to peacebuilding and reconciliation.

2. Part 2: Local Perspectives on M&E

This section presents the perspectives of local practitioners and researchers on M&E after war. The contributors share their insights into the importance of cultural sensitivity, community engagement, and participatory approaches to M&E.

3. Part 3: Measuring and Evaluating Peacebuilding Interventions

This section focuses on the measurement and evaluation of peacebuilding interventions. The contributors discuss the challenges of measuring complex and long-term outcomes, such as social cohesion and reconciliation. They also explore the use of innovative M&E methods, such as participatory monitoring and evaluation.

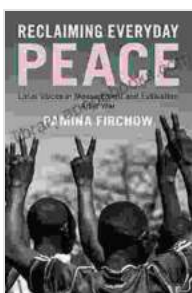

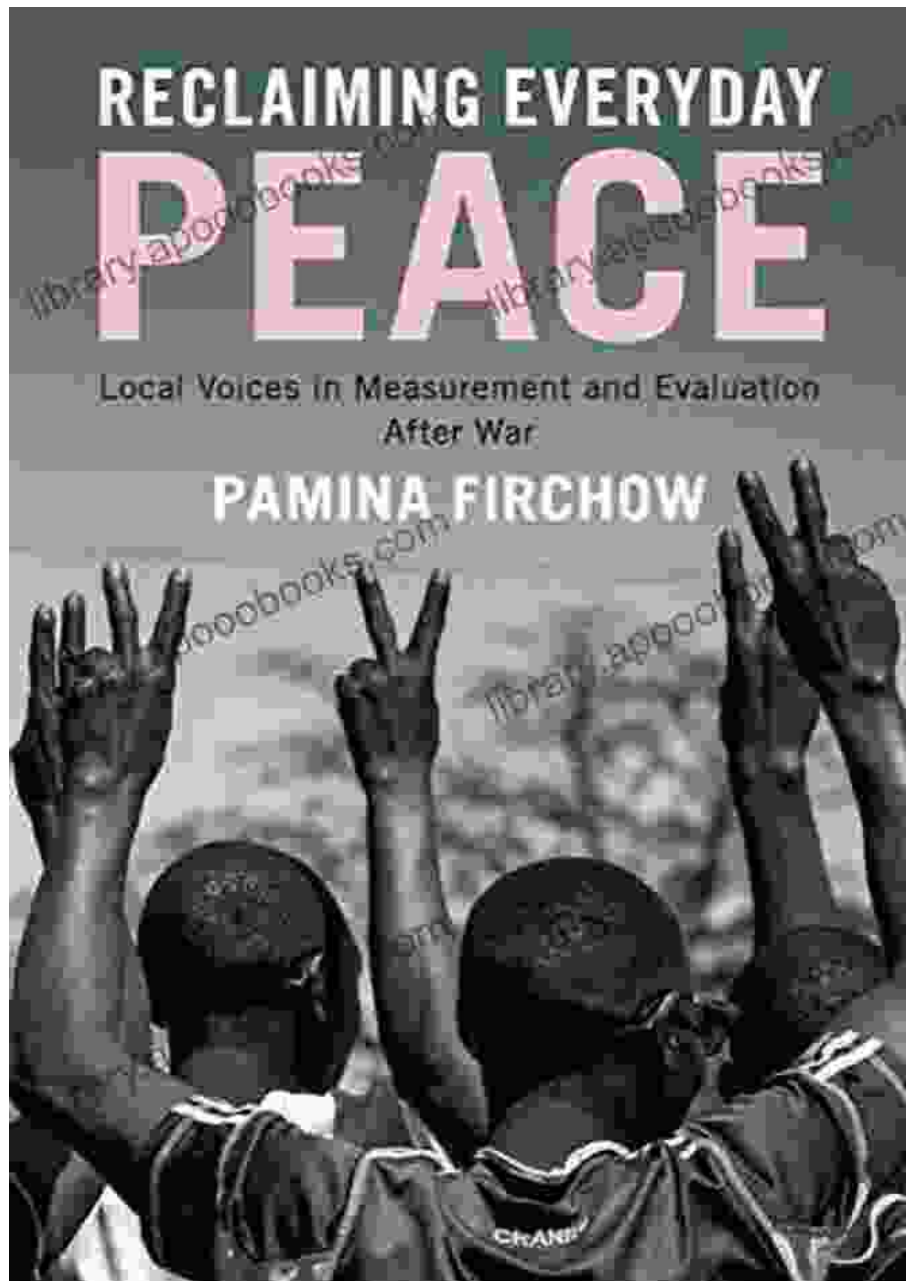

4. Part 4: Evaluating Humanitarian Interventions

This section focuses on the evaluation of humanitarian interventions. The contributors discuss the unique challenges of evaluating emergency response programs and explore the use of M&E to improve the effectiveness and accountability of humanitarian aid.

5. Part 5: M&E and Policymaking

This section explores the role of M&E in informing policymaking after war. The contributors discuss the challenges of using M&E evidence to influence policy decisions and recommend ways to strengthen the linkages between M&E and policymaking.

This book is an essential resource for practitioners and researchers working in the field of M&E after war. It provides a wealth of practical insights and theoretical perspectives that will help readers to design, implement, and evaluate effective post-conflict interventions.
